WORKS OF URBANE+

About URBANE

URBANE is an architecture, urban design and project visioning consultant firm based in Bandung. URBANE was founded on June 2004 in Bandung by M. Ridwan Kamil (an International Young Design Entrepreneur of the Year - IYDEY award recipients from British Council Indonesia in 2006) with his partners Achmad D. Tardiyana, Reza Nurtjahja and Irvan P. Darwis.

We have established an international reputation by doing some overseas project such as Syria Al-Noor Ecopolis in Syria and Changchun Financial District in China.

Urbane Indonesia's team consists of young professionals with creative and idealistic minds to look for and create solutions for environment and urban design problem. Urbane also has a community project in Urbane Community projects with a vision and mission to help people in an urban community to have donation access and skills to upgrade their neighborhood.

URBANE's ideas and visions for the built environment have a long journey in shaping most places both local and overseas. With the creative minds, URBANE brings to its worldwide clientele a team of several talented and visioned professionals that provide innovative solutions to complex problems. The firm has been involved in a broad variety of projects including large urban and suburban masterplans, mix use, a part of residential complex, entertainment, etc.

Principal of the firm, who are recognized as a leader specializing in the clients needs, is intimately involved through completion of work and is committed to excellence in design and to serving our clients with unique solutions.

The firm is dedicated to partnering with the clients to create places and architecture where the function and aesthetics work together, while responding to critical environmental and social issues, including ecology, visual impacts and economic viability.
