2. Course Description

This course discusses financial management for multi-national companies operating using multi-currencies and in a multi-jurisdiction environment. At the early section, this course addresses the concept of internationalization at the macro aspect that affects the international operations of business. The micro aspects of the financial management of multinational companies, including financing decisions and investment decisions, are discussed in the following section. All the theories, concepts, and practices of this course are essential in the decision-making process in order to achieve the company's goals to create corporate value.
